

Thanks for taking a few minutes to learn more about IU High School Online. We are a flexible, online education program that serves the academic needs of high school students around the world, harnessing the expertise of faculty and state licensed teachers to improve student learning outcomes.

I look forward to working with you.

Director RHONDA BATES

100+ Years

Since before the invention of sliced bread, IU has offered learning at a distance for students of all ages and circumstances.

Over the years, we have supported students with disabilities, athletes, students in the military, retirees, inmates, housewives, and teachers around the world to help them achieve their education in a way that works for them.

IU High School draws on the resources and expertise housed within the gates of Indiana University, collaborating with some of the world's foremost thinkers and researchers on learning to continually develop and refine our rigorous coursework.

Addison Lively.....Assistant Director
Licensed Teachers
Advising and Success Team
Full-time Administrative Assistant

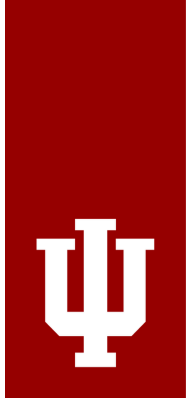

We offer **two diploma tracks** for non-supplemental students in line with Indiana DOE seals: IUHS Diploma and IUHS Diploma with Honors.

Our courses are **approved by the NCAA** for students planning to pursue college athletics.

We can assist students pursuing the **ICC certificate**.

IU High School Online

Indiana University's online high school brings a flexible, rigorous learning opportunity to students around the country and the world. **Become an IU High School Online school partner today.**

We provide supplemental courses that meet your students' needs

Dual credit courses with ACP@IUHS

IUHS has partnered with IU's Advance College Project to provide dual credit courses taught by licensed, ACP-trained high school teachers who meet Higher Learning Commission requirements.

Need to bridge a gap in your dual credit course offerings? Partner with us to meet the needs of your students pursuing the Indiana College Core and support the new Indiana honors enrollment diploma seal.

Tuition will be covered by ACP for enrollments from IU Indiana College Core Partner Schools that are submitted by the enrollment deadline.

iCAP partnerships

IUHS is an approved Indiana Course Access Program (iCAP) provider, giving schools across Indiana access to our extensive catalog of high school courses.

Through iCAP, we partner with schools to:

- Expand curriculum without adding local staff
- Offer advanced or specialized courses
- Support students with high-quality online options while they remain enrolled at their home school

We are committed to helping all Indiana students graduate ready for college, careers, and life.

Individual courses

Your students can also enroll with IU High School individually. Do you have students who:

- Need flexible opportunities to fit their schedule? Students can still participate in internships or other programs and take IUHS classes to stay on track.
- Failed a class and need to graduate? They can take that class at IUHS over the summer and catch up with their peers.
- Just want to take a course they can't access at their high school? IUHS offers a wide variety of courses and subjects.

All courses are taught by licensed Indiana teachers.

- **Semi-synchronous:** courses have the same start and end dates, students work independently but may share common due dates or a live component (weekly meeting)
- For **tuition** that is not covered by ACP, IUHS will invoice your school via a billing partnership. Schools are responsible for providing required **textbooks** to students
- **Schedule a meeting** to tell us more about your school, your students, and your school's needs. We'll create a custom plan and explain how we can successfully partner with you
- Get **one free enrollment** for every 10 supplemental course enrollments

- **Asynchronous:** self-paced, flexible, students can start any time in the year
- **Tuition and fees** can be found at iuhighschool.iu.edu/admissions
- **Learn more** about our course offerings at iuhighschool.iu.edu/diplomas-courses
